

JOB VACANCY – TECHNICAL PROJECT LEADER / PROJECT MANAGER

E2M Technologies BV, an MTS company, is a young company with its main office in Amsterdam, the Netherlands. E2M has a wealth of experience in the design, development and manufacturing of electric motion and control loading systems for a wide variety of applications such as vehicle simulation (aircraft, cars, trains, etc.), entertainment rides, research and development applications and more. E2M products are exported and serviced worldwide from our manufacturing facility in Mijdrecht. The working atmosphere at E2M is informal, dynamic, challenging, and flexible.

For the extension of our project team, E2M is looking for an enthusiastic colleague with a passion for high-tech systems.

As part of the project team, your main responsibilities will be:

- Manage the given projects on time, budget and quality
- Plan and coordinate project activities between all departments to ensure successful delivery to customers
- Monitor and forecast project hours, costs and schedule
- Build and maintain a good relationship with customers
- Coordinate and assist the systems/mechanical design department to achieve a product
- Prepare technical documentation and design specifications
- Oversee factory acceptance test and the customer site acceptance test

Job requirements:

- Full time position in our head office in Amsterdam
- Work experience: minimum 3 years relevant project management work experience in relevant industry and applications
- Project Management experience with complex, cross-functional projects – spanning all phases of a project's lifecycle: pre-sale support, estimation, scheduling and planning, engineering design, sourcing coordination, manufacturing coordination, customer acceptance, installation and overall project management, tracking, reporting and communication.
- Education: Bachelor in Engineering or Science Degree required, Master's Degree preferred
- Experience with control systems desired, preferably related to motion control
- Ability to work in a commercial environment with direct customer communication experience, able to assess risks and make tradeoff recommendations.
- Ability to read and interpret schematics, manuals and procedures, ability to learn test software and understand operation of Motion Systems
- Experience with Microsoft Project to plan and maintain projects schedules
- Excellent communication in English
- Strong customer orientation
- Excellent in managing budget, schedule and planning
- Ability to handling unexpected situations and implement mitigation and recovery plans
- Driving license (Car)
- Willing to travel (approx. 4 times a year)

E2M offers:

- An open, modern working environment, using short communication lines.
- Possibilities for growth in responsibilities and personal development.
- International working environment.
- Working with interesting high-tech products.
- Fun team that want to learn and grow.

At E2M Technologies BV you'll get a temporary contract for a year, which will be changed into a permanent contract upon good performance. The monthly salary depends on the function and your working experience.

If you think this job is for you, please send your resume and cover letter to jobs@e2mtechnologies.eu
